

# Arundo™ | Reeded Glass

**REEDED GLASS IS A PARTIALLY OBSCURE PATTERNED GLASS DESIGN. IT HAS MANY PARALLEL BANDS THAT RUN THROUGH THE GLASS, DIFFUSING LIGHT.**

Arundo is an obscure glass that is highly fashionable. With the ability to offer an aesthetically pleasing and on-trend privacy glass, Arundo is the ideal solution where subtlety is required.

Reeded glass provides a corrugated texture on the outside and comes in a variety of sizes and glass types. Laminated Reeded is available as well as monolithic.

---

## APPLICATIONS

Bathrooms  
Office partitions  
Anywhere privacy is required

## PERFORMANCE/ SPECIFYING

Arundo can be ordered toughened and as a laminate so that it can conform to high impact areas. All glass must be engineered to specific code and design, please contact Woods Glass to find out more information.

## CLEANING/ MAINTENANCE

Normally when cleaning glass, a vinegar-based glass cleaner or mild dish soap and water with a soft, lint-free cloth or paper products is recommended. A squeegee or soft cloth may be carefully used to dry the glass and help avoid water spots.

It is not recommended to use petroleum-based cleaners or solvents as they can streak the glass and weaken the seal between the glass and frame. Avoid washing in direct sunlight to reduce streaking on the glass.

Never use razor blades, steel wool, putty knives or abrasive pads as they may damage the glass, particularly on toughened glass.

## RANGE

Arundo is manufactured in a large variety of sizes in order to minimise loss due to cutting, and different thicknesses are available. Please contact Woods Glass to discuss special requirements.
